Dr. Pierce's Health Talks

The miracle of motherhood is often overshadowed by the misery of motherhood. The great functional changes which are incident to child bearing leave their mark for life on many a mother. Some women offer up their lives as a sacrifice on the altar of motherhood. A far greater number live on in ceaseless misery. Their strength fails, their beauty fades, they have no ambition and no enjoyment in life. To every woman

Offers escape from the pains and perils of motherhood. Taken during the period of waiting and anticipation this medicine strengthens the body, nourishes the nerves, and prepares the whole womanly system for the coming of baby. It also insures an abundant supply of nourishment for the child.

The mind feels bright and buoyant. There is no anxiety, no dread, but in its place a happy anticipation of the baby's coming, which counts for the future happiness of the child unborn. The use of "Favorite Prescription" makes the baby's advent easy, and gives abundant vitality to nursing mothers.

There is no alcohol or habit-forming drugs in "Favorite Prescription." It is a purely

vegetable medicine.

Accept no substitute for "Favorite Prescription." There is nothing "just as good" for weak and sickly women. All its ingredients printed on its bottle-wrapper. The larger success of doctor or druggist is never won by putting love for the dollar above duty to the sick. Protecting the sick, giving them what they ask for when Dr. Pierce's Favorite Prescription is called for, will enrich him in respect, if it does not swell to the utmost his profits.

Finest Typesetting Machine in the Southwest Now a Part of Equipment of El Paso Herald Plant.

A machine capable of setting eight different faces of type will this week

A machine capable of setting eight different faces of type will this wock he received by the El Paso Herald from the Mergenthaler Linotype factory; it is the very fatust product of the Mergenthaler factory.

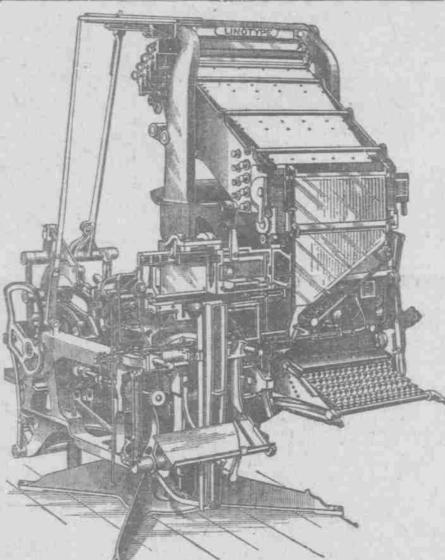

Very few of these machines are yet in use in the country and there is none in the southwest. It is the most expensive machine ever built by this famous firm. The machine has four magazines and can set 720 characters, bodies from five point to 35 point, faces from five to 42 point, and the width of the lines can be made from four ems to 30 ems. It has a water-cooled mold disc and every modern appliance known to the typesetting craft. This wonderful machine will, enable The El Paso Herald to give better service to advertisers than any other paper south of Kansas City and St. Louis; there is not yet a machine of this type in Texas and The Herald is the first to import this expensive place of machinery to this stafe or to the great southwest.

With the five linotypes already in use in The El Paso Herald office, the new machine sees this paper a battery of six machines, or more than any other newspaper between San Antonio and Loe Angeles, Cal., or south of Denver and Kansas City, as many if not more than any other two newspapers in this territory—almost twice as much as its next closest competitor—and it is necessary to here a large battery of typesetting machines to put the reading matter into type. As each machine is capable of doing the work of four men, this means that the six linotypes equal the citypit of 24 men in the old days of band set type.

The Herald has been for a number of years the best equipped newspaper in the whole southwest, and the arrival of this new typesetting machine only odds to its couplete equipment and makes it more the representative paper.

Are Mad Clear Through.

If you want adequate school facilities for your children you would better line up with the administration. This is the construction the residents of that portion of East El Paso who are demanding a new school have placed upon the remarks of a prominent member of the county organization. He did not say it just that way, but the meaning was there, the East El Pasoans say, and the substance of his remarks was that, since the people in that particular section of the city did not cast a unanimous vote for the administration at past elections, naturally they could not expect any particular favors in the way of schoolhouses from the administration field for the cast of school problem is rapidity accumulating a momentum which promises to develop some heated.

The East El Pasoans say.

The East El Paso school problem is rapidity accumulating a momentum which promises to develop some heated discussions at the meeting which has been arranged for Thursday evening by the school board to hear the protests of the citizens in that section against the construction of a small, four room building, instead of a larger school structure, capable of accommodating the children of that district now and for the pext few years to come.

Pussy-Feot School School Schools.

There is pot to be the customary secret, soft bedaling about this meeting. It is to be held at the Mesa school Thursday evening and will be a thinks. Thursday night the property owners and tax-paying patrons of the new school in East El Paso are going to ask the school board a few things which will not be asked in executive session. The questions will refer to the decision to erect a bit of a shoebox school building out there in East El Paso in spite of the protests of 250 or more patrons. These same questions

Post, Dullas News, and San Antonio Express; every feature of The El Paso Herald plant is modern; all departments are connected by inter-office telephone system; its files of cuts and newspaper data are far more complete than any other paper in the southwest, and its general arrangement enables its employes to befter perform their work than any other paper in this region. The El Paso Herald plant is always open to visitors, from the front door to the rear, and the public is invited at any time to make an inspection of the plant. The Herald management is not ashamed of its plant; it is rather proud of it, and a visit is always appreciated. There are no secrets to conesal in The Herald office; the place is always open to the public for the inspection of any department. Visitors to the city are invited to call and view the workings of a modern newspaper plant, the plant of the great southwest.

Nearly everybody likes Boston brown bread, but so many have experienced trouble with its being soggy, they have become discouraged. Here is a new recipe that cannot fail if the few simple directions are carefully followed. You will be delighted with the results.

H C Brown Bread One and one-half cup yellow corn-meal; 1% cup cutive-wheat flour; 1 teaspoon salt; 1% cup sweet milk; % cup molasses; 5 level leaspoonfuls K C Baking Powder.

Sift together, three times, meal, flour, salt and baking powder. Mix molasses and sweet milk and stir into dry ingredients to make a smooth batter. Turn into two empty K C Baking Powder boxes, thoroughly buttered, and let steam three hours. This bread is particularly good to serve with salads or raw oysters; also at breakfast, as toast of all kinds.

Raisins or currents may be added, though some prefer it without.

Readers of this paper may obtain The Cook's Book containing this and 89 other delicious recipes free by sending the colored certificate packed in every 25-cent can of K C Baking Powder to the Jaques Mrg. Co., Chicago. Send for The Cook's Book today.
